a

Energy $E(x)$

Benford freq. $\log_{10}(1+1/n)$

Deep well
(frequent number)

Shallow well
(infrequent number)

b

Posterior entropy landscape $H(x)$

$p(n \mid x=\mu_2)$ — sharp
$H = 0.13$

$p(n \mid x=\mu_8)$ — moderate
$H = 0.94$

$p(n \mid x=\mu_{13})$ — broad
$H = 1.18$

Low entropy
(certain → fast RT)

High entropy
(uncertain → slow RT)

Posterior entropy $H(n)$

Number line n
